Light-Weight, Economical And Versatile

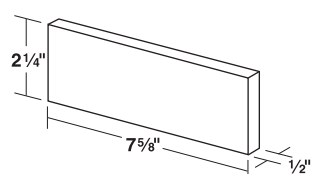

Cover and above, Hercules Public Library: Hercules, CA | Architect: Will Bruder Architects | Color: Custom blended for job

THIN BRICK was developed to cut the costs of masonry facings. It installs quickly and easily over a variety of substrates including conventional wood framing, metal studs, CMU, concrete and metal panel systems.

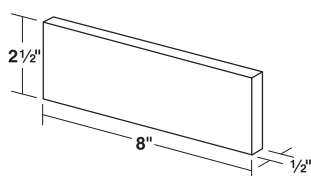

Thin brick weighs a fraction of full size units, it requires no special footings or heavy supporting structures. The results...the warm and permanent look of masonry without the added structural costs.

H.C. Muddox manufactures THIN BRICK with standard wire-cut texture. Smooth textured units are available on special order.

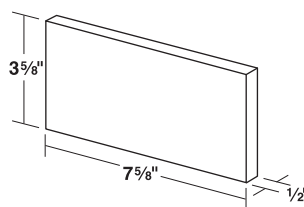

Sizes

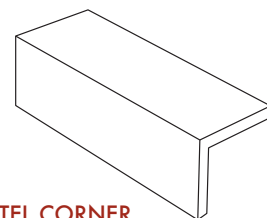

2 1/4 MINI MODULAR

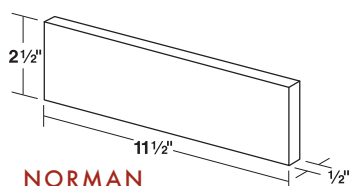

STANDARD

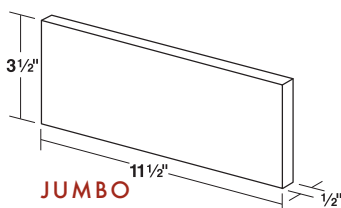

3 5/8 MODULAR

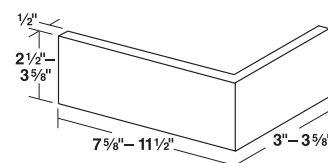

LINTEL CORNER

NORMAN

JUMBO

90° CORNERS

*NOTE: Standard stock size is 2 1/2" X 8". Consult your local representative for availability of other sizes & colors. 1/2" thickness for wirecut texture - 5/8" for smooth. Muddox Thin Brick meets or exceeds ASTM-C1088 Type TBS or TBX.
