**FIRE PIT SURROUNDS:** We do not recommend the use of our concrete products in environments that will heat the concrete to more than 200 degrees. Direct exposure to a fire's flame for an extended period of time will damage the concrete. Installations subjecting Stepstone's precast pieces to excessive heat will void the manufacturer's warranty and Stepstone, Inc., will not replace any damaged product.

\* Stepstone strongly recommends that you make your color selection using actual color concrete samples. All sizes are nominal.
